

The Atelier Standard & The Capstone

Who you are now — and the work that proves it

Learning Objectives

- Assemble the complete capstone portfolio from artefacts built across all fourteen modules
- Perform a full client service demonstrating the Amber Atelier standard, start to finish
- Articulate the Amber philosophy of hair care in your own words, to a client or an examiner
- Receive your Course II standing as a certified Amber Atelier hair practitioner

Fourteen modules, one practitioner

You have not been building isolated pieces of knowledge across this course. You have been building a single practitioner — one who understands the strand at the cellular level, reads a scalp honestly, respects a client's autonomy before touching a single hair, and carries the weight of global technique and heritage with reverence rather than convenience. This final module asks you to bring that practitioner fully into the room, one last time, before you carry her into practice.

You did not arrive here to memorise fifteen modules. You arrived to become someone a client's hair — and history — can trust.

Assembling the portfolio

Across this course, you were asked to keep specific artefacts. Gather them now into a single, organised capstone portfolio:

- The labelled strand and follicle drawing from Module One

- The texture map, scalp assessment card, and full routine prescription — your consultation trilogy — from Modules Two, Three, and Thirteen
- Your photographed, sanitised working kit from Module Nine
- Photographs of your completed haircut from Module Eleven, and your two global styling techniques from Module Twelve
- Your written life-stage consultation scripts from Module Eight, and your consultation roleplay reflections from Module Ten

The Capstone Service

One client. One complete Amber service, start to finish.

Perform a full-service appointment on a partner, model, or genuine client — consultation, assessment, service (cut, colour-adjacent guidance, or styling, as appropriate to your available materials), and send-off — exactly as this course has taught it, under observation.

- Conduct the full consultation and scalp assessment before touching the hair
- Perform disinfection protocol visibly and correctly
- Execute the service using correct technique, elevation, and heat safety
- Close with an honest, written aftercare and routine recommendation

30%

Technical Execution

Cutting, sectioning, and styling technique performed correctly and safely

25%

Consultation & Ethics

Honest expectation-setting, informed consent, and texture-neutral language

25%

Global & Cultural Fluency

Accurate, respectful command of at least one global technique from Module Twelve

20%

Professionalism & Portfolio

Hygiene discipline, documentation, and a complete, organised portfolio

The philosophy, in your own words

Before certification, you will be asked one closing question, in your own words and without notes: *What does it mean to care for hair the way Amber teaches it?* There is no script for this answer. It should draw on everything this course tried to model — the science held with rigour, the heritage held with reverence, the client held with honesty, and the strand itself held, always, more gently than it strictly needs to be.

Fifteen modules ago, you began by learning what you were touching.

You end this course knowing exactly who you are while you touch it.

Amber Atelier · Course II Complete · The Living Crown

Carry the crown as carefully as you were taught to carry the canvas.

Course III awaits.
