

The Atelier Standard & The Capstone

Who you are now — and the work that proves it

Learning Objectives

- Assemble the complete capstone portfolio from artefacts built across all fourteen modules
- Perform a full client service demonstrating the Amber Atelier standard, start to finish
- Articulate the Amber philosophy of nail care in your own words, to a client or an examiner
- Receive your Course IV standing as a certified Amber Atelier nail practitioner

Fourteen modules, one practitioner

You have not been building isolated pieces of knowledge across this course. You have been building a single practitioner — one who understands the living matrix beneath the plate, reads a nail honestly, sterilizes without exception, and respects a client's autonomy and the traditions she carries before ever picking up a file. This final module asks you to bring that practitioner fully into the room, once more, before you carry her into practice.

You did not arrive here to memorise fifteen modules. You arrived to become someone a client can trust with her hands — and increasingly, with the health those hands quietly reveal.

Assembling the portfolio

- The labelled nail unit drawing from Module One
- Your baseline record, assessment card, and full at-home prescription — your consultation trilogy — from Modules Two, Three, and Thirteen
- Your traditional oil hand massage photograph from Module Five

- Your photographed, fully sanitised working station from Module Nine
- Your completed manicure or pedicure photograph from Module Eleven
- Your two completed global technique looks from Module Twelve

The Capstone Service

One client. One complete Amber service, start to finish.

Perform a full-service appointment on a partner, model, or genuine client — consultation, assessment, service, and send-off — exactly as this course has taught it, under observation.

- Conduct the full consultation and nail assessment before touching the hands or feet
- Perform full sterilization protocol visibly and correctly
- Execute the service using correct, gentle technique throughout
- Close with an honest, written aftercare and maintenance schedule

30%

Technical Execution

Correct, gentle technique and even, fully cured finished result

25%

Sanitation & Safety

Full sterilization protocol and correct handling of any incident

25%

Consultation & Ethics

Honest expectation-setting and informed consent handled correctly

20%

Global Fluency & Portfolio

Command of at least one global technique and a complete, organised portfolio

The philosophy, in your own words

Before certification, you will be asked one closing question, in your own words and without notes: *What does it mean to care for hands and feet the way Amber teaches it?* There is no script for this answer. It should draw on everything this course tried to model — the structure held with rigour, the heritage held with reverence, the client held with honesty, and the smallest, most overlooked details of hygiene held as seriously as the most visible artistry.

Fifteen modules ago, you began by learning the living matrix beneath the plate.

You end this course knowing exactly whose hands you are honouring while you shape it.

Amber Atelier · Course IV Complete · The Living Hand

Carry the hand as carefully as you were taught to carry the canvas, the crown, and the palette.

Course V awaits.
