

The Atelier Standard & The Capstone

Who you are now — and the work that proves it

Learning Objectives

- Assemble the complete capstone portfolio from artefacts built across all fourteen modules
- Perform a full client service demonstrating the Amber Atelier standard, start to finish
- Articulate the Amber philosophy of bodywork in your own words, to a client or an examiner
- Receive your Course V standing as a certified Amber Atelier body & spa practitioner

Fourteen modules, one practitioner

You have not been building isolated pieces of knowledge across this course. You have been building a single practitioner — one who understands the fascia and lymph beneath every stroke, screens for contraindications that genuinely matter, works at the edge of resistance rather than through it, and holds every client's body — in every size, every life stage, every state of comfort with touch — with the same reverence. This final module asks you to bring that practitioner fully into the room, once more, before you carry her into practice.

You did not arrive here to memorise fifteen modules. You arrived to become someone a client can trust with her body, in its most literal sense.

Assembling the portfolio

- The labelled body diagram from Module One
- Your health intake record and full at-home prescription from Modules Three and Thirteen
- Your Abhyanga-style massage photograph from Module Five

- Your photographed, fully sanitised massage and waxing setup from Module Nine
- Your completed massage and waxing service photographs from Module Eleven
- Your notes on two global massage techniques practiced in Module Twelve

The Capstone Service

One client. One complete Amber service, start to finish.

Perform a full-service appointment on a partner, model, or genuine client — consultation, assessment, service, and send-off — exactly as this course has taught it, under observation.

- Conduct the full health consultation before touching the client
- Perform full linen, table, and (if applicable) wax pot sanitation visibly and correctly
- Execute the service using correct pressure calibration, draping, and technique throughout
- Close with an honest, written aftercare and maintenance recommendation

30%

Technical Execution

Correct technique, pressure calibration, and stroke direction throughout

25%

Safety & Sanitation

Contraindication screening, sanitation protocol, and heat/wax safety checks

25%

Consultation & Ethics

Draping, ongoing consent, and professional boundary handling

20%

Global Fluency & Portfolio

Command of at least one global technique and a complete, organised portfolio

The philosophy, in your own words

Before certification, you will be asked one closing question, in your own words and without notes: *What does it mean to care for the body the way Amber teaches it?* There is no script for this answer. It should draw on everything this course tried to model — the structure held with rigour, the heritage held with reverence, the client held with honesty, and every body that ever lies on your table held as worthy of the same unhurried, careful attention, regardless of its size, its age, or its history with touch.

Fifteen modules ago, you began by learning the fascia and fluid beneath every stroke.

You end this course knowing exactly whose body you are honouring while you tend it.

Amber Atelier · Course V Complete · The Living Touch

Carry the touch as carefully as you were taught to carry the canvas, the crown, the palette, and the hand.

Course VI awaits.
